

AEROMD EMERGENCY AIR EVACUATION BENEFIT – For Boaty Ball (BB) Members

This benefit is only valid in conjunction with a paid Boaty Ball Membership.

EMERGENCY EVACUATION

AeroMD will arrange for the ordinary and necessary expense of fixed wing air and/or ground transportation associated with an air transport, medical care during transportation, communications, and all usual and customary ancillary charges incurred in transporting a BB Member who is hospitalized as an in-patient in Tortola, BVI or the USVI, to a hospital in Puerto Rico or Florida (Miami/Ft. Lauderdale) where appropriate emergency medical care is available. AeroMD reserves the right to determine whether the BB Member's medical condition warrants medical evacuation, the location to which the BB Member will be evacuated, and the means or method by which such evacuation or repatriation will be carried out. In making such arrangements, AeroMD may consider all relevant circumstances, including, but not limited to, the BB Member's medical condition, the degree of urgency, the BB Member's fitness to travel, airport availability, weather conditions, and travel distance. The BB Member must be under the care of a qualified clinician capable of initiating a transfer order. AeroMD can only dispatch a transport once all requirements are met including but not limited to; approval by our medical control that the BB Member is fit to fly, appropriate travel documentation for patient and passengers, confirmation of acceptance and bed assignment at the destination and there are no aviation or security limitations. Provided space is available and flight conditions allow, AeroMD will allow one companion selected by the BB Member to escort the BB Member in the air ambulance during evacuation.

SERVICE OUTSIDE OF THE BVI AND USVI

AeroMD can offer assistance to BB Members for air ambulance transports when hospitalized outside of the BVI or the USVI under the following conditions: BB Member must contact AeroMD directly for assistance; AeroMD will work with BB Members' Insurance provider to qualify coverage. In the event insurance coverage for air ambulance transport may not be covered, pre-authorization may be required. Pre-authorization does not constitute guarantee of payment and AeroMD, at its discretion, may require a retainer. If Insurance provider denies pre- authorization or the transport is deemed a non-covered benefit, AeroMD can provide a self-pay quotation to assist the BB Member.
